

Fran Pierce

Fran Pierce has been Chairman, CEO and President of DSA since 1991. Under her management, the company has become a leader in enterprise-wide, mission critical information technology solutions. She joined the company as a System Design Analyst, having worked for RCA Corporation and Ford Aerospace, where she designed and developed communications projects.

Fran serves on the Board of Directors, and a member of the Finance Committee, for the International Eye Foundation, an organization dedicated to the promotion of peace through the prevention of blindness. She also serves on the Rowan University Dean of Engineering's Advisory Council and the Alliance of Women Entrepreneurs (AWE) as a member of the Membership Committee and leads their CEO Roundtable Group. With over forty years' domestic and international experience in both commercial and government sectors, Fran has been the recipient of many awards and recognitions from both the private and government sectors throughout her career.

Fran received a B.S. degree in Mathematics from Chestnut Hill College and attended graduate school at Temple University.
