RECRUITMENT GUIDELINES

Definition of recruiting activities include but are not limited to job postings, networking events, career fairs, information tables, on-campus interviews and employer presentations. Career and Personal Development reserves the right to refuse access to recruiting if employers are not in compliance of this document or do not act in a professional manner.

- Handshake is the online platform available to employers to post full-time, internship, and part-time positions as well as coordinate recruiting events.

- Due to the high volume of requests, employer account and job postings will be approved within 2 business days barring weekends and holidays. Additional information may be requested from employers regarding the same.
- Employers and campus departments who email or fax any jobs to the office will be directed to Handshake for their posting (see prohibited recruiting practices section).
- Positions that offer a commission only compensation structure must disclose that in the posting for approval.
- Third-party recruiters may post positions within the system only if the name, location and timeframe of the employment site is disclosed in the position.
- All service or volunteer opportunities can be directed to the Office of Service Learning and Community Engagement by contacting Megan Camp at campm@neumann.edu

INTERNSHIPS

- The internship experience must have a learning and supervision component that provides for applying the knowledge gained in the classroom. It must not exist simply to advance the operations of the employer nor should it be work that a regular employee would routinely perform.
- To be eligible for credit, the internship must be a 150-hour experience related to the student's major or field of interest. Students take a course with their internship experience. These opportunities must be approved by Career and Personal Development and/or the relevant academic unit.
- The experience must have a start and an end date, along with desired qualifications. We encourage employers, particularly those in the private sector, to pay interns whenever possible. Paid internships offer attract a larger, more diverse, and a more qualified pool of candidates.
- We do not provide academic credit for virtual internships currently. These postings will be reviewed for approval based on additional criteria such as project management tools, supervision options, in-person meetings etc.
- Private sector employers should also be familiar with the [U.S. Department of Labor guidelines](#) for legally offering unpaid internships.
