Please provide any additional information about or descriptions of the supervised clinical experiences:

We have not accepted students into the program yet. Once we launch the program, the students (who will all be the teacher of record in their classroom) will apply concepts studies in class in specific ways. Each student will have both a University Supervisor and a Cooperating Teacher. In addition to pre- and post-observations conferences, the Supervisor will observe in the classroom at least one time per month and will meet with the student (one-on-one and sometimes in small groups) bi-weekly to reflect and discuss progress, questions, etc.

Enrollment and Program Completers

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(§205\(b\)\(1\)\(H\)\)](#)

What are CIP Codes?

☒ No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.
- Yes

No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
- Yes

No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
- Yes

No

Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
- Yes

No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
- Yes

No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
- Yes

No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
- Yes

No
8. Describe your institution’s most successful strategies in meeting the assurances listed above:
- While we have not offered the program yet, the curriculum is designed so that preparation for the above areas is integrated throughout the program. In addition, there are courses dedicated to meeting the needs of special needs and limited English proficient students. Also, while the program does not include preparation in the core areas for special education students, the students in the program have already earned a bachelor's degree. I was unsure how to respond to #3 above.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All courses in the program embed instructional technology, and all students take SPEC 558, a course on use of assistive technology. Course work is infused with requirements that have students implement various technologic supports to lesson planning and implementation. In some courses students have opportunities to analyze data based on assessments of students. The University management system, Blackboard, is used in all courses. In addition, data is readily available to faculty and administration. This data will be used to make informed decisions about the program and about student progress in the program once we are preparing students in the program.

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All students will engage in rigorous coursework and assignments will help students analyze their experience in the classroom to better understand their students with disabilities. Students will learn about and apply principles of Universal Design for Learning in their special education courses. Students will also develop accommodations and modifications in lesson plans and IEPs. Students will develop Positive Behavior Intervention plans, Functional Behavior Assessments, and classroom management techniques to teach students with disabilities effectively.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students in the program must be the teacher of record while completing the program. In that role, our students will participate as a member of individualized education program teams. If for some reason a student will not have this experience in their position, we will arrange a suitable opportunity for our student. Students learn about the process, develop an IEP and participate in role-played IEP meetings in courses to prepare them for the experience.

c. Effectively teach students who are limited English proficient.

Students will receive instruction in teaching limited English proficient students in ECE 531 Language Development and the English Language Learner. The focus of the course is instructing LEP students. The course provides a comprehensive overview of the elements of second language acquisition and their impact on defining culture and addressing cultural differences within the classroom. In addition, all courses in the program include specific ideas and strategies related to differentiating instruction as well as ideas for addressing cultural differences which ELLs/LEP students can benefit from.

2. Does your program prepare special education teachers?

- ☒ Yes
- ☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

We are in the process of getting Institutional approval to offer this program and hope to bring in students for the 2022-23 academic year. Neumann's programs adhere to the frameworks established by the Pennsylvania Department of Education (PDE). We have not prepared teachers in the programs yet but the program is designed to ensure all students receive training related to child development, pedagogy, assessment, teaching students with disabilities effectively, meeting the needs of LEP students, and being dedicated culturally responsive and sustaining educators. Students must pass the appropriate state-mandated knowledge tests prior to being accepted into the programs. Once the program is launched we will assess the program annually, using signature assignments in courses to assess whether students are meeting the learning outcomes for the program. These learning outcomes overarch PDE standards. In addition to the annual program assessment, faculty will focus course assessments on the PDE standards to ensure students who complete our program are fully prepared. Most course assignments will take advantage of the fact that students in the programs will be acting as the teacher of record in a classroom while in the program. Students will have opportunities to analyze their own practice and make adjustments accordingly.
